Trailer Type Connection	Not Applicable

The vehicle specification section assists you with better understanding your vehicle's standard and optional equipment, via VIN decode processing. These processes are generally reliable, and providers work to continually improve their decoding. However, different VIN decode processors may show different specifications. If you have questions, please check with your vehicle's manufacturer. Dealers/sellers also report installed option information, which is provided when available.

## Junk/Salvage/Total Loss

Source NMVTIS

This section discloses events related to events like junk, salvage and insurance total loss that have been reported to VINData History. Included are state DMV titles that show junk, salvage or similar brands, insurance total loss events and salvage auctions or junk yard disclosures. Events related to an auto dismantler, auto recycler or crush facility indicate that the vehicle has sustained major damage. A vehicle that has been received by a salvage auction or junk yard usually indicates major prior damage, however these entities also remarket undamaged vehicles. We recommend an inspection by a qualified mechanic.

Good news - no junk, salvage or insurance total loss events have been reported to VINData History.

## Title Information

Source NMVTIS

This section identifies this vehicle's current and historic DMV titles reported as issued by date, indicating the state and reported mileage. Title brands that have been reported to VINData History are shown in the "Title Brands Reported" section below. Each title record represents a new title holder, duplicate title, lien release or other title event. Odometer

## 2012 FORD E-450

VIN 1FDXE4FSXCDB24219

As shown below, all 2012 FORD E-450 vehicles have had one or more recalls issued by NHTSA. Use the NHTSA box below to check for unrepaired/open recalls. If there is an unrepaired/open recall, the vehicle can be repaired by a local FORD dealer at no cost to dealers or consumers.

Issued Recall: 14V426000

NHTSA ID:	14V426000
Components:	FUEL SYSTEM, OTHER:DELIVERY:HOSES, LINES/PIPING, AND FITTINGS
Consequence of Defect:	A propane leak in the presence of an ignition source increases the risk of a fire.
Defect Description:	Roush Performance Products, Inc. (Roush) is recalling certain model year 2010-2012 Ford E-150 Wagons and Cargo Vans, E-250 Cargo Vans and Extended Cargo Vans, E-350 Wagons, Extended Wagons, Cargo Vans, and Extended Vans, and E-450 Cutaway models. These models were modified by Roush to be equipped with certain propane fuel system conversion kits manufactured January 2011 to August 2012 with an aluminum fuel line fitting. Due to a reaction between the different metals, the affected kits may develop a propane leak where the aluminum fuel line fitting contacts the brass supply valve housing.
Corrective Action:	Roush will notify owners and will replace the aluminum fuel line fittings with new stainless steel fittings, free of charge. The recall began on September 1, 2014. Owners may contact Roush customer service at 1-800-597-6874.
Manufacturer:	Ford Motor Company
Recall Date:	07/10/2014
Potential Number of Units Affected:	36
Notes:	Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to <a href="http://www.safercar.gov">www.safercar.gov</a> .

Issued Recall: 14V501000

NHTSA ID:	14V501000
Components:	FUEL SYSTEM, OTHER:DELIVERY:HOSES, LINES/PIPING, AND FITTINGS
Consequence of Defect:	A propane leak in the presence of an ignition source increases the risk of a fire.
Defect Description:	Adrian Steel Company (Adrian) is recalling certain model year 2012 Ford E-150, E-250 and E-350 Commercial Cargo Vans modified by Adrian between September 21, 2012, to September 24, 2012. The affected vehicles are equipped with certain propane fuel system conversion kits with an aluminum fuel line fitting manufactured by Roush CleanTech. Due to a reaction between the different metals, the affected kits may develop a propane leak where the aluminum fuel line fitting contacts the brass supply valve housing.
Corrective Action:	Adrian will notify owners, and dealers will replace the aluminum fuel line fittings with stainless steel fittings, free of charge. The recall began during July 2014. Owners may contact Adrian customer service at 1-800-677-2726.
Manufacturer:	Adrian Steel Company
Recall Date:	08/06/2014
Potential Number of Units Affected:	28
Notes:	Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to <a href="http://www.safercar.gov">www.safercar.gov</a> .

VIN 1FDXE4FSXCDB24219

Issued Recall: 14V595000	
NHTSA ID:	14V595000
Components:	EQUIPMENT ADAPTIVE/MOBILITY
Consequence of Defect:	If the platform side plates crack, the lift platform can separate from the lift and come to rest against the vehicle's lift door. When the doors are opened, the platform may fall out, increasing the risk of injury to the lift operator.
Defect Description:	Elkhart Coach (Elkhart) is recalling certain model year 2006-2014 Ford E-350 and Ford E-450 vehicles manufactured January 1, 2006, to May 1, 2014 and equipped with certain model S2005, S2010, S5005, S5010, S5505, and S5510 wheelchair lifts manufactured by Ricon Corporation. The platform side plate of the affected wheelchair lifts may crack.
Corrective Action:	Elkhart will notify owners to take the vehicles to a Ricon dealer or service center who will install supplemental platform support bumpers. Any platform that has already started cracking will be replaced, free of charge. The recall began on October 1, 2014. Owners may contact Ricon customer service at 1-800-322-2884. Owners may also contact Elkhart customer service at 1-574-264-5179. This recall has been superseded by campaign 15V-768.
Manufacturer:	Ford Motor Company
Recall Date:	09/24/2014
Potential Number of Units Affected:	437
Notes:	Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at

Issued Recall: 15V112000	
NHTSA ID:	15V112000
Components:	EQUIPMENT ADAPTIVE/MOBILITY
Consequence of Defect:	If the platform side plates crack, the lift platform can separate from the lift and come to rest against the vehicle's lift door. When the doors are opened, the platform may fall out, increasing the risk of injury to the lift operator.
Defect Description:	Farber Specialty Vehicles (Farber) is recalling various specialty vehicles modified by Farber and equipped with model S2005, S2010, S5005, S5010, S5505, and S5510 wheelchair lifts manufactured by Ricon Corporation. The platform side plate of the affected wheelchair lifts may crack.
Corrective Action:	Farber will notify owners to take their vehicles to a Ricon dealer or service center who will install supplemental platform support bumpers. Any platform that has already started cracking will be replaced, free of charge. The recall began on March 24, 2015. Owners may contact Farber customer service at 1-800-331-3188, or Ricon customer service at 1-800-322-2884. Farber's number for this recall is 14E-041.
Manufacturer:	Ford Motor Company

# Specialty Vehicle History Report

## 2012 FORD E-450

VIN 1FDXE4FSXCDB24219

### NMVTIS Consumer Access Product Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are **strongly encouraged to also obtain an independent vehicle inspection** to ensure the vehicle does not have hidden damage. The [Approved NMVTIS Data Providers](#) (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data **INCLUDES** (as available by those entities required to report to the System):

- Information from [participating](#) state motor vehicle titling agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and truck tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit [vehiclehistory.bja.ojp.gov](http://vehiclehistory.bja.ojp.gov) for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

### VINData Products Consumer Access Product Disclaimer

This report, and any reliance upon it, is subject to [VIN Data Terms Of Service](#). If you obtained the report from a dealer, lender, or other company, the company has been provided with these Terms and Conditions and can share them with you.

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are strongly encouraged to also obtain an independent vehicle inspection to ensure the vehicle does not have hidden damage.

## 2012 FORD E-450

VIN 1FDXE4FSXCDB24219

### General Terms

**Recalls:**  
The vehicle's manufacturer, or NHTSA (National Highway Traffic Safety Administration) has determined that the vehicle has a safety or other defect that can affect the vehicle's safety or driveability. Recalls can be repaired at no cost at a manufacturer's franchise dealership.

**Title:**  
Official state DMV document that identifies the vehicle, any lienholder and owner. Rules governing issuance are specific to each state.

**Junk or Salvage event (from NMVTIS):**  
Vehicle was seen at a junk yard, wrecker, dismantler or crusher, or seen at a salvage yard or salvage auction. These vehicles can range from inoperable to fully driveable with little or no actual damage.

**Odometer Reading:**  
Distance (in miles or kilometers) that the vehicle has traveled. Over time, the mileage reported should increase. Many vehicles are driven 10,000-15,000 miles a year; others more or less.

**Event Date or Date Applied:**  
Date the event was reported to have occurred.

### Data Sources

Your VINData History report checks for and reports information from the following high-quality data sources. Please see our report sections page, FAQ, terms of service and disclaimer for more information.

## 2012 FORD E-450

VIN 1FDXE4FSXCDB24219

VINData History Reports for auto dealers and other commercial users provide Manheim Market Report (MMR) values. MMR is the premier indicator of wholesale prices. MMR helps users research vehicle values quickly and easily. Valuations are based on millions of wholesale transactions from the previous thirteen months, and are refreshed each night. For additional details, please see "MMR Under the Hood" on Manheim.com.

Dealers and other commercial uses: please contact us to get MMR values added to your reports.

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that provides consumers with valuable information about a vehicle's condition and history. Prior to purchasing a vehicle, NMVTIS allows consumers, dealers, wholesale auctions, vehicle lenders and insurers to find information on the vehicle's title, most recent odometer reading, brand history, and, in some cases, historical theft data. See NMVTIS Consumer Access Product Disclaimer

EveryCarListed.com has one of the best and most affordable auto lead programs available. The auto leads are generated across our expansive network of 100+ sites and a reach of 12 million unique visitors a month. They have a unique approach to delivering quality leads to your dealership and your bank/credit union. Auto dealers and banks/credit unions across the country have enjoyed the ROI their unique affordable approach to delivering VIN-specific leads.

Upstream Inspections utilizes proprietary technologies with over 100 years of combined automotive experience to provide a transparent and independent bridge between buyers and sellers. Our condition reports include detailed descriptions with pictures of existing cosmetic issues as well as identify prior major damage and repairs. Our technicians are trained to NAAA standards to identify damages and previous repairs that may not be visible to untrained eyes.

We continue to enhance our technologies to give our clients the most detailed and accurate information and history.
